Objective

Entry-level Full Stack Developer with a robust background in graphic design, electronics, and software development. Recently completed a six-month full-stack bootcamp with hands-on experience building modern web applications using React, Node.js, MongoDB, and Express. Passionate about clean code, scalable systems, and continuous learning. Seeking to contribute to innovative development teams with a strong problem-solving mindset and a collaborative spirit.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive Web Design, React Router

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, CRUD operations

Databases: MongoDB, PostgreSQL, MySQL, Firebase (NoSQL & SQL)

Version Control: Git, GitHub

DevOps & Deployment: Netlify, Heroku, Vercel, Docker (Intro), AWS (Basic)

Other: WordPress, Adobe Creative Suite, Blender, SketchUp, UI/UX Principles

Testing: Jest, Postman (manual API testing)

Education

Associate of Arts in Graphic Design (In Progress)

Seattle Central College – GPA: 3.8

Electronics Technician Certificate

Greater Regional Technical College – Burnaby, BC

Full-Stack Software Development Bootcamp (Self-Study)

Completed 6 real-world full-stack projects, including full deployment and documentation.

- Built & deployed applications using MERN stack
 - Integrated RESTful APIs and authentication (JWT)
 - Designed and optimized full-stack apps using CI/CD and modern cloud tools
-

Projects *(All available on GitHub)*

E-Commerce Full-Stack App

React | Node.js | MongoDB | JWT

- ◆ Users can register, log in, add to cart, and checkout
- ◆ Integrated secure authentication and cloud deployment

Task Manager App

React | Express | MongoDB

- ◆ Full CRUD functionality with secure token-based authentication
- ◆ Responsive layout and real-time feedback

Weather Dashboard

React | OpenWeather API

- ◆ Pulls and displays real-time weather data with custom styling
- ◆ Error handling and location-based results

Portfolio Website

React | Tailwind | Netlify

- ◆ Personal portfolio showcasing projects and design work
 - ◆ Responsive, animated UI with blog and contact form
-

Professional Experience

Freelance Full Stack Developer & Designer — 2019–Present

Seattle, WA

- Designed and developed responsive websites using WordPress, React, and HTML/CSS
- Delivered customized branding and illustration assets to small businesses and creators
- Optimized website performance and ensured cross-browser compatibility

Film Industry (IATSE 891) – Concept Artist & Scenic Carpenter — 2014–2021
Vancouver, BC

- Collaborated on award-winning productions (*Deadpool*, *Star Trek Beyond*, *Snowpiercer*)
- Produced storyboards, environment designs, and physical set elements
- Strengthened communication, adaptability, and project delivery in high-pressure teams

Telecommunications & Electronics Technician — 1993–2013
Multiple Firms (USA & Canada)

- Installed and maintained advanced telecom systems, fiber networks, and smart home technologies
- Gained proficiency in troubleshooting, hardware integration, and customer communication
- Transitioned into automation systems, sparking interest in coding and development

Soft Skills & Strengths

- Strong problem-solving & debugging skills
- Quick learner and highly adaptable
- Collaborative communicator with creative thinking background
- Excellent time management and attention to detail

Certifications & Additional Training

- Codecademy: JavaScript, Python, SQL
- MongoDB University: Intro to MongoDB
- Harvard CS50 (in progress)

- YouTube/Udemy tutorials on CI/CD, Docker, and API security
